Mr. W. T. Murley,  
Leonard, Texas.

Dear Mr. Murley:-

By advise of Dr. J. S. Steele who has been treating Thad's eyes for sometime, without improvement, I am taking the liberty to send him home for consultation, and for rest a week or two. If you do not approve of this, kindly return him at my expense. I am actuated by his interest, for he is a model student with a splendid record here.

If you and he decide that his eyes will not permit of study for a few weeks, I will agree to rebate you on account for absence, and do what is right, in accordance with contract in our catalog, with the distinct understanding, however, that if he attends any other School or does any studying between now and May 10th, he will do this in the Peacock School, rather than some other School.

It is with deep regret and disappointment that we part with this boy, and I assure you that I only wish I had one hundred more like him.

Your friend,

*Wesley Peacock*
